

## **Project Together (PT)**

**THE MISSION:** The mission of Project Together (PT) is to promote and develop communities in which physical and attitudinal barriers preventing involvement by all persons in the community no longer exist; thus: enabling all people to live their lives to the fullest!

In partnership with Community Education and Adult Basic Education, providing opportunities for adults with and without disabilities in education, recreation, and Socialization.

Census data indicates that nearly 16,000 persons with limiting disabilities live in five county area of Todd, Wadena, Cass, Morrison, and Crow Wing. Their different abilities take many forms: many have physical limitations, some are developmentally delayed, others are learning disabled, and some have hearing or visual impairments. These persons with different abilities have the same rights as others to educational services which enhance their independence and enable their full participation in society. Moreover, people with different abilities have special abilities that are important to the life and well being of their community.

**PT RECOGNIZES & PROVIDES** that sharing and caring, which go hand-in-hand. Serving many communities in Central Minnesota, PT provides necessary assistance and modification in programming to enable everyone to feel comfortable participating in Community Education's regular and special activities.

### **Serving Todd and Morrison:**

Browerville, Eagle Bend, Little Falls, Long Prairie/Grey Eagle, Motley, Pierz, Pillager, Royalton, Staples, Swanville, Upsala, and Central Lakes College - Staples Campus

### **Northern Region Adult Basic Education**
